

## **Please don't pass me by**

### **Verse 1**

There was a blind man on the road side,  
and he heard a commotion yeah  
It was Jesus passing by with a crowd,  
and it stirred his emotions

**(Oh-oh-oh-oh)**

He'd been displaced his whole life, should he even try  
Hou-o-o-o-o

**Don't bother Jesus** (they say you have nothing)

**You have nothing to offer** (stay in your place)

**Right then he knew** (he had to choose)

**He had nothing to lose**

### **Ref**

So he cried Jesus (**Jesus**), I need you (**I need you**) (yeah  
ah) **please don't pass me by**

He cried out Jesus, (**Jesus**), I'm not ashamed (**to tell  
you, I need you in my life**)

I need you in my life yeah

### **Verse 2**

I'm not much different from that man,  
and this is the honest truth  
Could this sinful one, with this messed up life,  
could I ever serve you

**(Oh oh oh oh)**

people and things clutter my mind,  
should I even try

Ohhhhhh

**Don't bother Jesus** (that's what they say)

**You have nothing to offer** (stay in your place)

**I must admit** (when I think about it all)

**I need you in my life**

**Ref**

So he cried Jesus (**Jesus**), I need you (**I need you**) (yeah  
ah) **please don't pass me by**  
I'm crying out, (**Jesus**), I'm not ashamed (**to tell you, I**  
**need you in my life**)

**Bridge**

As the deer (**as the deer panted**)  
Thirsty for the water yeah (**thirsty for the water**)  
My soul desires and longs to be yeah (**to be with you**)

**Outro**

Jesus, **I need you, please don't pass me by**  
I don't mean to waste your time but I can't listen to the  
crowd,  
the situations in my life telling me to keep it down  
- but I need you

**I know I'm broken, but you can heal me,**  
**Jesus, Jesus I'm calling you**  
(I might not be worth much - but you know I'm willing  
**might not be worth much, but I'm still willing**  
**Jesus, Jesus, I'm calling you**

I know I'm broken, but I know you can heal me

I feel I'm worthless – but I know you love me

Oh Lord, thank you Jesus

**Jesus, Jesus x fade**
